

We look forward to welcoming you at the
5th Annual QPI National Conference in New Orleans, Louisiana.
January 16-17, 2018!

In ten years, the Quality Parenting Initiative (QPI) has expanded from three areas in one site to more than 70 sites in ten different states! We're still growing and our conference will focus on bringing more voices to QPI. Celebrate ten years with us, embracing new partners, and new approaches!

Held at the JW Marriott, this conference will feature developmental sessions with international experts, Judges, Birth and Foster Families, and youth panel discussions. Discussion sessions to include co-parenting, sibling and extended family relationships, partner engagement, family centered foster parent investigations, information sharing, and effective social media work.

There will be opportunity to review successes, explore challenges with QPI colleagues from around the country, and share tools and solutions! We encourage participation by Child Welfare Staff and Leadership, Youth, Birth and Foster Families, Judiciary, QPI Workgroups and Community Partners.
